Electronic Patent Application Fee Transmittal								
Application Number:	10552667							
Filing Date:	21-Jun-2006							
Title of Invention:	Continuous casting of bulk solidifying amorphous alloys							
First Named Inventor/Applicant Name:	William L. Johnson							
Filer:	John Peck/Trudi Thompson							
Attorney Docket Number:	52421/JWP/L471							
Filed as Small Entity								
U.S. National Stage under 35 USC 371 Filing Fees								
Description		Fee Code	Quantity	Amount	Sub-Total in USD(\$)			
Basic Filing:								
Pages:								
Claims:								
Claims in excess of 20		2615	2	25	50			
Miscellaneous-Filing:								
Petition:								
Patent-Appeals-and-Interference:								
Post-Allowance-and-Post-Issuance:								
Extension-of-Time:								

Description	Fee Code	Quantity	Amount	Sub-Total in USD(\$)
Extension - 2 months with \$0 paid	2252	1	230	230
Miscellaneous:				
	Tota	280
